**These grants came about through the Foundation's 2019 ad-hoc special interest area centered on reintegration and reentry of formerly incarcerated individuals. Unfortunately, the onset of the COVID pandemic in early 2020 dramatically interrupted or forced adaptation of most of these grants, and the Foundation's plan to study the outcomes and lessons learned from this work as a whole was severely limited. As such, the Foundation is unlikely to consider unsolicited requests in this subject area until further notice.*
